

## **Cultural Institutions**

**by w/k-Redaktion - Monday, April 25, 2016**

<https://www3.hhu.de/wuk/en/cultural-institutions/>

*The objective is to progressively and comprehensively list institutions occupied with the connections between science and art by whatever means. At that, distinctions are made between:*

- *Art galleries and museums occasionally launching exhibitions involving such connections*
- *Foundations that among others or primarily support such connections,*
- *Scholarship opportunities arising from w/k.*

*For those who know of institutions that so far have not been included, please contact Till Bödeker and provide him with the details.*
